democratic society

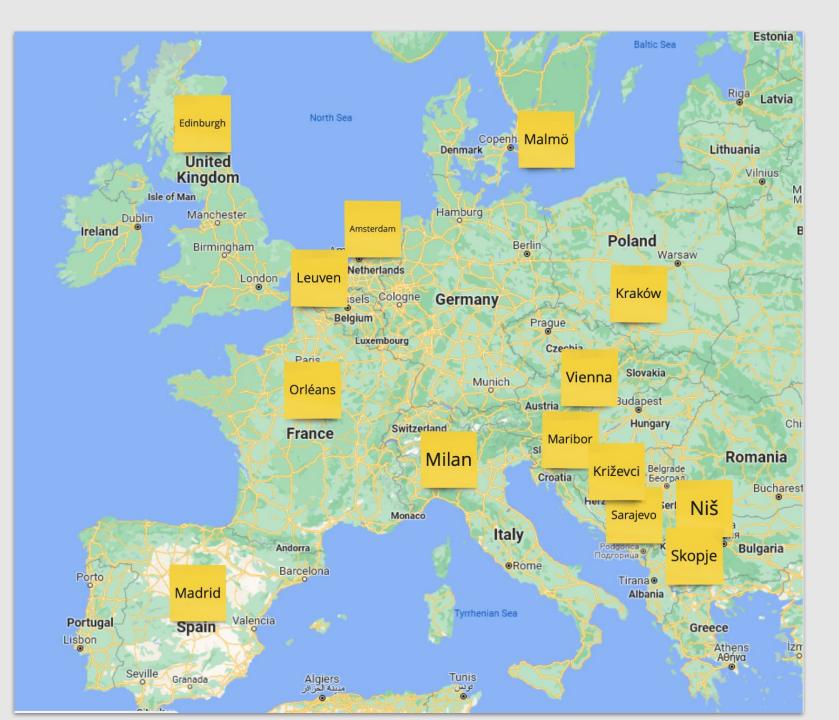

How can we better address the climate challenge by addressing the democratic challenge?

November 2021

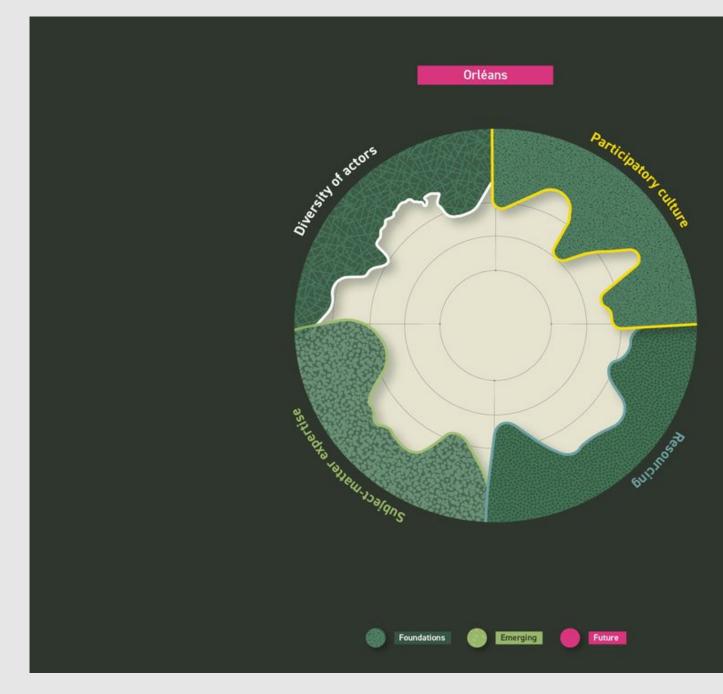

EIT Climate-KIC Healthy, Clean Cities project

2

Democratic Climate Model

Democratic Climate Model

Rooted collaboration: citizen participation interwoven Weak collaboration: citizen participation as afterthought

One situat actors Hicharion Inclus more Rooted collaboration: mix of technical, participatory, community actors Rooted Weak collaboration: collaboration homogeneous actors with technical, consultative focus expertise estituates expertises SUIDA esuer our nosat

> Rooted collaboration diverse voices and knowledge systems in local context

Weak collaboration homogeneous voices and knowledge systems; may have no local context Rooted collaboration: funding of options, with clear and concrete goals Weak collaboration: funding of projects and outputs
