

*International Scientific Cooperation Office
Municipality of Mashhad*

Mashhad Restorative City

Reducing and Controlling Urban Violation through Citizen Participation

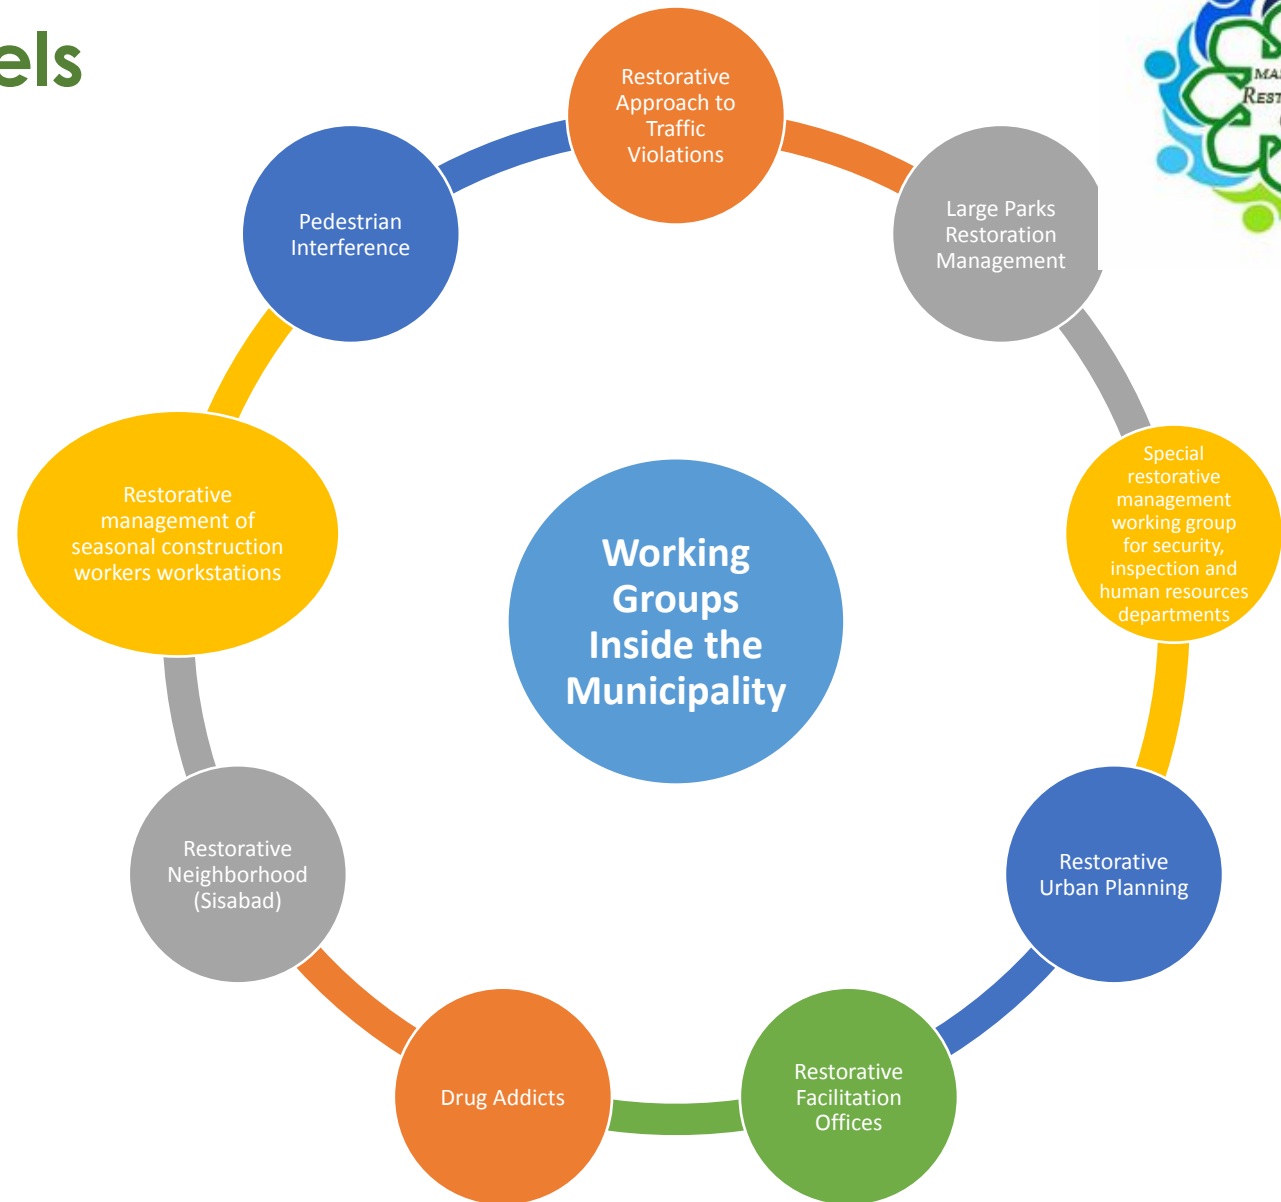

Features of this approach:

Secretariat functional levels

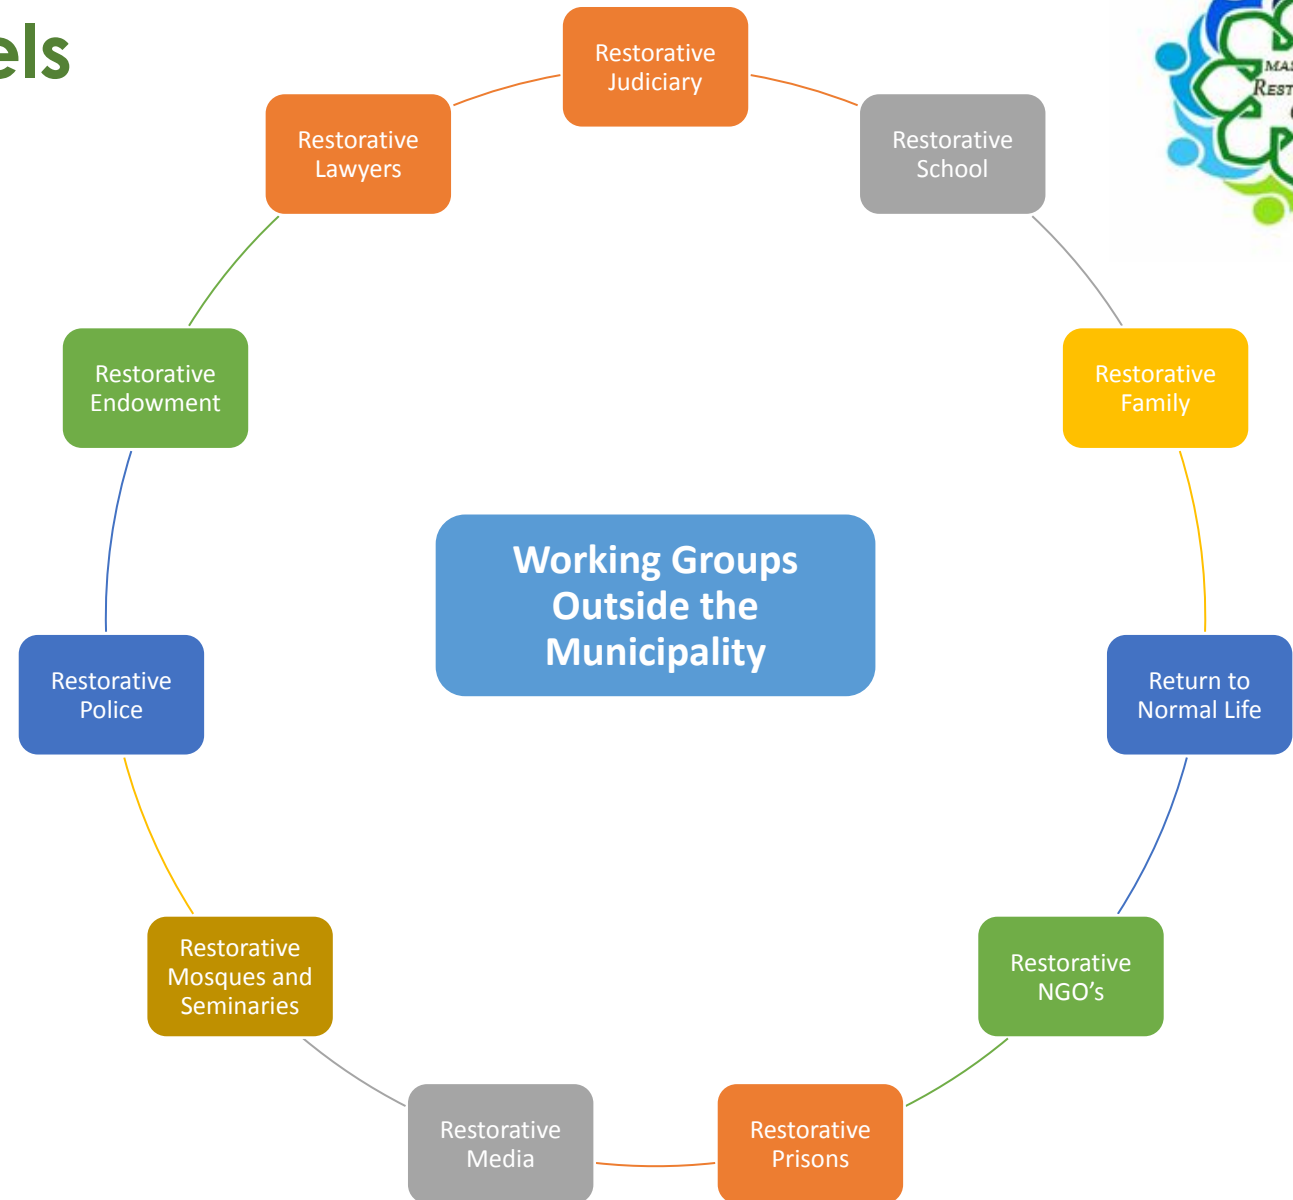

Urban Violation is a social phenomenon and should be addressed with the help of society and using a comprehensive approach to deal with it on all its dimensions .

Secretariat functional levels

The *Secretariat of the Restoration City* has a coordinating role in these working groups, and their executive and functional framework is determined and performed only by their appointed secretaries.

Discourse Making, Promoting the Approach
